- h: How I turned the Asset Accounting Centre (AAC) around.
When I took over as Head of the AAC it was an obscure, not understood, Ministry of Defence business unit.
I developed a new mission with a 3 year strategy supported by goals which I used to:
1. Streamline the processes eliminating none productive activity.
 2. Developed a marketing campaign to sell the AAC to MoD senior managers so they understood what could be done for them:
- Year 1: design and implemented new processes.
Year 2: liaised with customers.
Year 3: monitored and corrected processes.
-
- i: Below is my mission statement for BSAC; the goals that will underpin my decisions and actions during my term as Chair of BSAC.
- BSAC MISSION**
